INSTALLATION INSTRUCTIONS

IMPORTANT NOTICE: Be sure to inspect and test fit product before having it coated or painted. Ranch Hand will not be responsible for the cost of the coating if any problems with fit or finish are not noted and addressed beforehand.

PARKING SENSOR RELOCATION KIT for: GGF19MBL1 (2019-up Ford Ranger Grill Guard) PART # PSF19MBP

1. Remove the sensors from sensor holders.
2. Unplug sensors from harness and install pigtails(supplied).
3. Run pigtail through tow hook openings.
4. Plug sensors into the pigtails.
5. Insert the rubber grommets into the holes of the bottom channel.

6. Insert sensors into the grommets. You may want to wipe a little WD-40 into the grommet opening to help insert the sensor. (DO NOT TWIST SENSOR).

----- WARNING -----

Special care should be exercised in the handling, storage and installation of Ranch Hand equipment.

The actual weight of each piece of equipment will vary depending on style and model. The weight of the equipment is sufficient in volume to warrant special care, assistance and in some instances, the use of mechanical equipment during the transfer and installation of the equipment. Do not assume a position directly under the equipment during installation. Be sure the equipment has been connected and stabilized during installation to prevent falling or shifting of positions.

Periodically check tightness of bolts to make sure they are tight, and unlikely to fail.
